AR Diorama – Qurious Island

By Get Qurious Inc.

ISLANDS

There are three kinds of tropical islands: volcanic, coral and continental.

VOLCANIC islands are created by volcanic eruptions on the ocean floor.

CORAL islands are formed when rock and sand build up on coral reefs.

CONTINENTAL islands are pieces broken off or separated from a continent.

MAKE A BACKGROUND

Materials: 6 or 9 sheets of paper, Favorite drawing tools, Tape

1. Tape the 6 or 9 sheets of paper together to make one BIG sheet. **FLIP!**
2. Draw a BIG island on the BIG sheet.

Step by Step:

APP VOICE RECORDING

WHAT SHOULD I SAY?

Idea! Try saying the NAME of each item. Or record these neat facts!

- Palm Tree**: These trees' trunks have rings where palm fronds used to be.
- Tide Pool**: Water in tide pools goes up and down with the tide.
- Rock**: Some Islands have volcanic rock, others have rocks made of sand.

- Tent**: Tents keep you dry in the rain.
- Cloud**: Clouds are made out of water!
- Palm Frond**: Fronds are used for making fans, baskets and roofs.
- Pygmy Squirrel**: Pygmy squirrels are among the world's tiniest squirrels.
- Baya Weaver**: Male birds turn yellow to attract a partner.
- Weaver Nest**: These nests have

Aryzon Cardboard Augmented Reality Headset

<http://bit.ly/arheadset>

HOW IT WORKS

CREATE A LAYER OF DIGITAL INFORMATION OVER YOUR REAL WORLD ENVIRONMENT

Aryzon uses the power of your smartphone to provide the AR experience. The fusion of sensor data and your camera allows our software to accurately perceive and track your surroundings. The camera of your smartphone will recognize and track the provided radial target image, creating a link between the holographic image and the target image.

The stereo image on the display is brought into focus before your eyes via a mirror, lightweight stereoscopic lenses, and combiner glass. This creates a vivid 3D holographic image which can be viewed from any angle.

Description

Back by popular demand! Join us for a fun and fast-paced session that exposes the audience to cutting-edge tools and devices in education technology! Get a first look at the latest, most exciting gadgets, apps, hardware and software through the eyes of educational technology's leading trainers: Adam Bellow, Hall Davidson, Leslie Fisher and Kathy Schrock. Boost your enthusiasm for the possibilities of technology to radically transform education. See technologies in action that involve learners in creating, making, programming, coding, producing, innovating, inventing, designing, problem solving, publishing, and more!
